

Contact Information:

8-10-07 Dry. Lots of

nut grass. High

potential for breeding.

Will be irrigating

around 8-14.

8-28-07 - Pasture was

cooking. While I was

inspecting + treating some

guys on property were trying

to kill wasps. Wasps were

everywhere. Will return w/

pellets when free of

wasps.

8-3-25-08 Problem area

in past. D.S. not

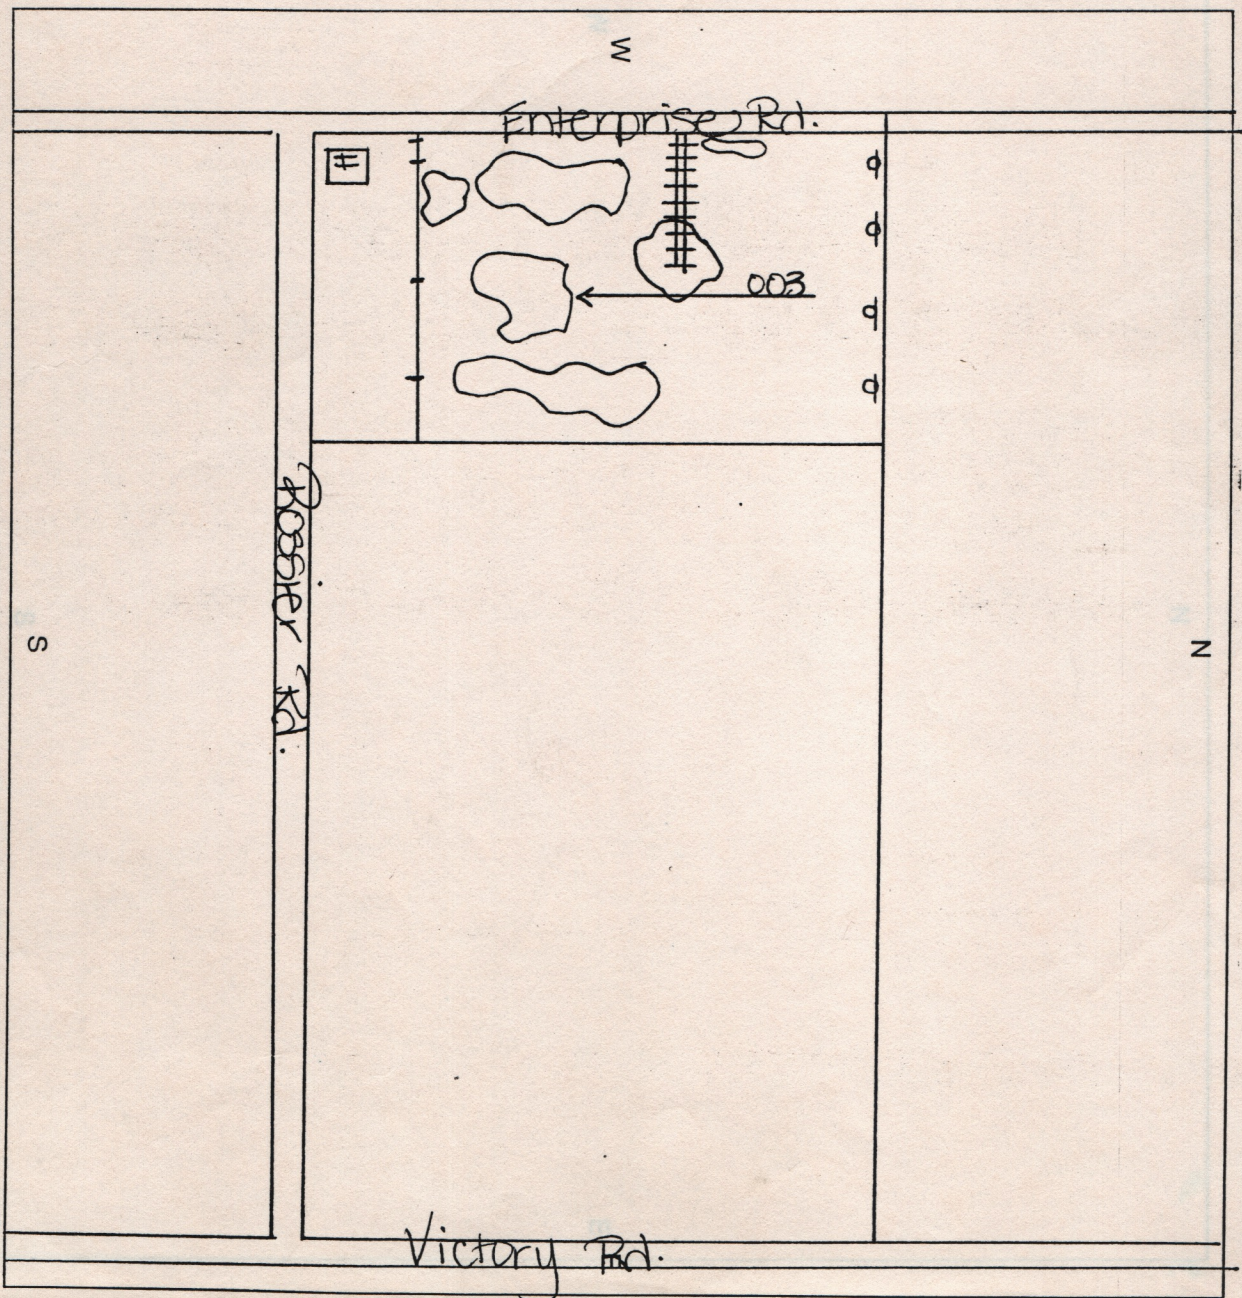

overirrigate this time

getting ready for another

irrigation.
