Document Text  
CERVICAL SPINE

**\*\* HISTORY \*\*:**  
Right and left cervical spine radiculopathy.

**\*\* FINDINGS \*\*:**  
The cervical curvature appears straightened. The vertebral bodies and arches are intact. The atlantoaxial and facet joints are unremarkable. The disk at C5-6 is slightly narrowed with minimal marginal osteophytes and uncovertebral arthropathy. No prevertebral soft tissue mass.

**\*\* IMPRESSION \*\*:**  
Slight degenerative disk disease at C5-6.

Wuyen Huang M.D.
