Subject: Hearing on 2/12/14

Ms. Anderson:

First let me apologize for my oversight regarding your representation status. The DIR website still lists Ronald Stein as your counsel. The substitution of attorney filed way back when Was misfiled in our file. I have located the documents. As I have told you on several occasions you are entitled to Future medical care on those cases. Other benefits that may be owed to you such as temporary disability and permanent disability would possibly be owing when, and if, you file Petitions To Re-open on these cases. TO date you have not done so. I continue to believe that the documentation that you requested back in December is not germane to those cases at this time.

I do not know what issues are of most importance to you at the hearing scheduled for February 12, 2014.

I will ask Eddie to provide you with the source card numbers used to identify the Stockton sewer site from 2004-09.

I have honestly lost track if you have all documents you need to present to Dr. Allems. Some, as I have told you, have been destroyed.

I would ask that you either provide a list prior to or at the hearing so this can be addressed.

I will redraft the letter to Dr. Allems to note your requested changes once we have a new exam date. I have not rescheduled the exam and will not do so until after the hearing and until we are in an agreement of what documents are going to be sent to Dr. Allems.

I will provide you with a benefit printout either before or at the hearing.

I have continued to indicate you are entitled to treatment for your knee. I believe that there is no MPN but will double check. You have never given me the name of a physician with whom you would want to begin treating for your knee.

I look forward to your response.

Kyle Hansen
