### **FEE DISCLOSURE**

**ML 106-95:** This is a Qualified Medical Evaluation Supplemental Report. This represents the summary of total time spent on record review, the preparation of a narrative report and its review & final editing. **Total time spent was 3 hr 30 mins.**

**\*\*This is a medical legal report and does not qualify for a PPO/Network discount.**

### **REVIEW OF MEDICAL RECORDS**

06/20/2008. Donald Rossman, M.D. First report. DOI: 06/19/2008. CC: Stiffness, pain, and swelling in right leg. It is a moderate shooting pain, that is constant. DX:

RE: ANDERSON, TIFFANY

Page 2

Right knee effusion. Anterior cruciate ligament sprain, right. TX: Prescribed Propoxyphene-APAP 100-650 mg. WORK STAT: Modified 06/20/2008. No squatting, kneeling or crawling. No climbing ladders. Wear splint and brace as directed. No prolonged standing or walking. FU VISIT: 06/23/2008. (p. 16)

06/20/2008. David Wong, M.D. (radio) X-ray. DOI: NA. SPEC STUD: X-ray of the right knee. DX: Soft tissues and osseous structures intact without any obvious fracture or dislocation seen. Joint space is maintained without any narrowing. (p. 22)

06/23/2008. Donald Rossman, M.D. Follow up. DOI: 06/19/2008. CC: Condition remains unchanged. Stiffness, pain, and swelling in right leg. It is a moderate shooting pain, that is constant. DX: Right knee effusion. Anterior cruciate ligament sprain, right. TX RECOM: Authorization for physical therapy 3 times a week for 2 weeks. WORK STAT: Modified 06/23/2008. No squatting, kneeling or crawling. No climbing ladders. Wear splint and brace as directed. No prolonged standing or walking. FU VISIT: 1 week. (p. 23)

06/30/2008. Donald Rossman, M.D. Follow up. DOI: 06/19/2008. CC: Improving as expected. DX: Right knee effusion. Anterior cruciate ligament sprain, right. TX: Complete physical therapy. Discontinue knee support. Continue other treatment measures. WORK STAT: Modified 06/30/2008. No squatting, kneeling or crawling. No climbing ladders. Wear splint and brace as directed. No prolonged standing or walking. FU VISIT: 07/08/2008. (p. 28)

07/08/2008. Donald Rossman, M.D. Follow up. DOI: 06/19/2008. CC: Pain, stiffness, and swelling in right leg. Pain is mild and throbbing and occasional. DX: Right knee effusion. Anterior cruciate ligament sprain, right. TX: Add TENS unit to help decrease pain and swelling. Finish physical therapy. Continue ibuprofen. Knee brace as directed. WORK STAT: Modified 07/08/2008. No squatting, kneeling or crawling. No climbing ladders. Wear splint and brace as directed. No prolonged standing or walking. Off work due to no modified duty at work. FU VISIT: 1 week. (p. 33)

07/15/2008. Donald Rossman, M.D. Follow up. DOI: 06/19/2008. CC: Pain, stiffness, and swelling in right leg. Pain is throbbing and burning and unbearable. It is constant and worse with walking. DX: Right knee effusion. Anterior cruciate ligament sprain, right. TX: Knee brace as needed. Prescribed Propoxyphene-APAP 100-650 mg. TX RECOM: Authorization for physical therapy 3 times a week for 2 weeks. WORK STAT: Modified 07/15/2008. No squatting, kneeling or crawling. No climbing

RE: ANDERSON, TIFFANY

07/11/2013. Jeff Suckow, MPT. (Physical therapy) DOI: NA. Physical therapy evaluation (p. 317)

#### COMMENTS

According to the letter from Kyle Hansen, I was authorized to review submitted medical records, and author a Supplemental Report in response to Ms. Anderson's letter dated February 11, 2014.

Ms. Anderson requested me to review the supplemental and additional medical documentations and wanted me to revise some of my findings. She added "that your past findings based on the insufficient documentations have already affected my claim." She did not address what findings in reports adversely affected her claim. She states she has been suffering from tremendous emotional and physical harm from this complicated Workers' Compensation System and find it difficult to comprehend her rights.

From the emotional aspect of the injury, as far as it is outside of my scope of practice, I leave it up to a psychiatrist for further evaluation and making recommendations. From the physical harm of the injuries, I have already addressed the issues related to the right knee and with this letter; I try to the best of my ability to enlighten the areas of her concern.

In terms of her legal rights, that is an issue needs to be addressed by an attorney.

In this letter, Ms. Anderson pointed that she was perfectly healthy when prescreened in 2004 prior to the employment with Mosquito Abatement. If you look at all my reports, I pointed that her knee injuries are directly related to the claimed industrial accidents, and that clearly reflects that the knee was normal when she was hired for Mosquito Abatement Company.

She pointed to the settlement of first two claims of June 19, 2008 and March 26, 2009 and added that repeated injuries caused her financial hardship and also she addressed the lawsuit of Meidinger versus SJCM and VCD, which again those are legal issues and as a physician, I have no authority to make any comments.

She asked me for an "objective reevaluation" of her findings, because she is in the process of finalizing her legal claims against the employer. She wanted to give me the opportunity to modify my medical findings without a need for a deposition or testimony under subpoena. Please note that I do my evaluation based upon the history obtained from the patient, physical examination, review of x-rays, MRIs, report from treating physicians, and then formulate my opinion. In some cases, attorneys prefer depositions to clarify certain issues and I am more than happy to go through that process if you desire to do so.

There are additional questions asked, and my response is as follows:

1. In response to the question #1, you pointed to four dates of injuries and those are not the date of MRIs that were taken. MRIs were obtained on 7/28/08, 4/7/09, and 8/9/11.
2. In response to the question #2 and #3, MRI findings are pathological changes and not representing an injury. It is the duty of the treating physician to determine that MRI findings are compatible with the injury.
3. In response to the question #4, I am not sure what you mean by other injuries arose out of industrial accidents causing or affecting other body parts. Do you mean injuries to other body parts or injuries to the different parts of the knee joint? In fact, if you feel that other body parts are affected as a result of industrial accidents then you need to file a new claim.
4. In question #5, I reviewed the entire file and report of all the physicians, it appears to me that the treatment provided for you by all the physicians appear to be appropriate and according to the good standards of medical practice.

RE: ANDERSON, TIFFANY  
Page 12

Hopefully, I was able to answer your questions, but, if you are still concerned, you could send me another letter or request reexamination and I would be happy to discuss it in more detail if you wish.

Thank you for the opportunity to review this additional information. If I may be of additional assistance please correspond with me, in writing, at 8221 N. Fresno St, Fresno, Ca. 93720.

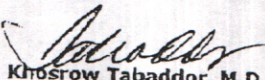

ATTESTATION

"I, Khosrow Tabaddor, M.D., personally took the examinee's history, reviewed the medical records, performed the physical examination, and dictated this report. All of the opinions expressed in the report are mine." In the preparation of the report Jodi Guthrie, MT, arranged all of the records in chronological order and prepared a list and summary of records for my review. I personally then reviewed all of the available medical records and the summary prior to using all or parts of it in the preparation of my report. The entire report was then personally reviewed by me and signed on the date and county as indicated.

"I hereby declare under penalty of perjury that I have not violated Labor Code Section 139.3 and have not offered, delivered, received or accepted any rebate, refund, commission, preference, patronage, dividend, discount or other consideration for any referral for examination or evaluation by a physician."

"I declare under penalty of perjury that the information contained in this report and its attachments, if any, is true and correct to the best of my knowledge and belief, except as to information that I have indicated I received from others. As to that information, I declare under penalty of perjury that the information accurately describes the information provided to me and, except as noted herein, that I believe it to be true."

Sincerely yours,

  
Khosrow Tabaddor, M.D.  
Orthopaedic Surgeon

Signed this 18 day of April 2014 in LA County in the State of California.

State of California  
**DIVISION OF WORKERS' COMPENSATION - MEDICAL UNIT**  
**AME or QME Declaration of Service of Medical - Legal Report (Lab. Code § 4062.3(i))**

Case Name: Tiffany Anderson v AIMS ACCLAMATION INSURANCE MANAGEMENT SE  
(employee name) (claims administrator name, or if none employer)

Claim No.: VE0700184 EAMS or WCAB Case No. (if any): \_\_\_\_\_

I, Nicholas Dennie, declare:

1. I am over the age of 18 and I am not a party to this case.
2. My business address is: 8221 N. Fresno St, Fresno, CA 93720
3. On the date shown below, I served this QME Findings Summary Form with the original, or a true and correct copy of the original, comprehensive medical-legal report, which is attached, on each of the persons or firms named below, by placing it in a sealed envelope, addressed to the person or firm named below, and by:

- A depositing the sealed envelope with the U.S. Postal Service with the postage fully prepaid.
- ☒ placing the sealed envelope for collection and mailing following our ordinary business practices. I am readily familiar with this business's practice for collecting and processing correspondence for mailing. On the same day that correspondence is placed for collection and mailing, it is deposited in the ordinary course of business with the U. S. Postal Service in a sealed envelope with postage fully prepaid.
- C placing the sealed envelope for collection and overnight delivery at an office or a regularly utilized drop box of the overnight delivery carrier.
- D placing the sealed envelope for pick up by a professional messenger service for service.  
(Messenger must return to you a completed declaration of personal service.)
- E personally delivering the sealed envelope to the person or firm named below at the address shown below.

Means of service:  
(For each addressee,  
Enter A-F as appropriate)

Date Served:

Addressee and Address:
