Diagnostic Imaging Report

Lodi Health
975 S. Fairmont Ave
Lodi, CA 95240

Patient Name: PARVIN, MARY JEAN DOB: 03/16/43
MRN#: M053082
Account#: V024596629

Accession: **11163.001**
XRAY Thoracic Spine W/Swim 3 View 04/29/13
Total exam DLP: (mGy-cm)

History: Mid thoracic spine tenderness after fall.

Findings: Four views of the thoracic spine show no acute fracture or malalignment. Multilevel degenerative endplate spurring and disc space narrowing are seen. Multiple sternal wires are fractured.

Impression: No evidence of acute fracture or malalignment of the thoracic spine.

Narrative 02121972

u/a pt found sitting on floor, in bedroom. per pt, she tripped over her cat in the kitchen. she then crawled in to her bedroom to call 911. pt had a small laceration to the underside of her second toe on her left foot. pt was also complaining of lower back pain, however this pain is chronic and was not caused by the fall. pt states she is not having any new pain, but she would like to go to the hospital and have her foot evaluated. pt denies chest pain, shortness of breath, upper back/neck pain, LOC, or any other pain unless noted. pt treated and transported w/o incident or further injury. pt taken to room 20 at LMH and care transferred to awaiting staff.
