Dear Ms. Anderson,

As of today, it appears you have not had the chance to read the e-mail I sent through the KP.org secure messaging system from the date listed below. Please check your spam filter to allow messages from KP.org and let me know if you have any questions about this information.

Secure message sent on: 6/25/2013

Hi, Tiffany,

I was waiting to see you yesterday morning however you missed that apt. You been telling me that you will be loosing insurance for a long time and continued to get medication with out being seen.

You were last seen in July 2012.

It is mandatory for us to see any patient on chronic pain medication to be seen once every 6 months for reevaluation.

On my records it is showing that you will have insurance until 7/31 not until 6/30

So i can't refill your medication with out seeing you.

I am not trying to be tough however i think i gave you enough chances by refilling your medication with out seeing you for almost a year.

Hope you understand.

Please schedule apt with me.

I will be here only wed and thu and will be gone until 7/8

See you in the clinic.

Please do blood work and urine test before apt or on that day

**Thank you
Dr.Jasti**

Sincerely,

HYMA JASTI, M.D.
