

Brian is the one who had a key & gave it to Mike.

July 09

7-1-09

Started treating my dairies was on a roll Brian & I spoke around 11:30 he said he would be out in my zone at 12 to bring me a lava bucket for lab and some Vectomax. He called me back at 12 and said he'd be there by 12:30 and asked me to go fill tank w/ crop spray I had told Joe Desike not to drain his water and I would be back after lunch to treat. It was boiling pictures on file. Brian calls me at 1 & we end up meeting at 1:20. I am anxious because I had alot to treat so hurry and he comes up with this pasture that has to be sprayed. We get into it a bit about conflicting priorities. After he leaves I load up my truck start spraying the pasture & sink into the field Brian & Norm Dave was driveable. Dave pulls me out around 2:30.

I told people with pasture I would return tomorrow to spray.

Ran over to Henry dairy to get sample.

Met with SSSD to get...
