DIAGNOSIS

1. 836.1 /

WORK STATUS: This patient has been instructed to

Remain off work until 7/8/09, and then on 7/8/09, light duty with no squatting, no climbing, intermittent walking and standing.

Return to modified work with the following limitations and restrictions:

Return to full duty with no limitations or restrictions.

Continue with: Modified Work Full Duty

Date of Exam: July 07, 2009

Part of Body: Right Knee

Subjective: Tiffany had much worse symptoms last week. On Thursday, she had a fair amount of swelling and discomfort. She is taking Motrin three times a day. Today her knee is very painful.

Objective: Mild antalgic gait pattern. Mild effusion of her knee. Tenderness along the lateral joint line.

Assessment: Continued symptoms following partial lateral meniscectomy which is performed over nine months ago.

Plan: Light duty for one week. I will see her back in the office at that time. Return to work tomorrow. I told Tiffany I would give her up to one year to improve after her arthroscopic treatment before declaring her permanent and stationary. Hopefully modified work is available.

I have not violated Labor Code 139.3, and the contents of the report and bill are true and correct to the best of my knowledge. This statement is made under penalty of perjury. Dated 7/14/09, at San Joaquin County, CA.

Gary T. Murata, M.D./sh
