Hi,
I have sent the request to lab.
Go to lab at any time that is convenient to you and have test done. Also sent request for iron count and some other test.
I will let you know once the results are back.

I can't believe it. I just left Delta Blood bank. They would not take my blood my iron count was one point off. I went there because I wanted to be screened. This last week I was in three hot spots working at dawn killing adult mosquitoes. I have had a headache and fever for the past two days. My place of employment is not doing any screening on us. Can you schedule blood work? The part I can't believe is I just walked in the door to ask you this question and you were one email ahead of me. My cel number is 329-2339 if the answer is yes.
