Subject: Trying to settle all of this, again

7/23/2015

Dear Chris,

Every opportunity that I have given you to focus inward at the District's actions towards me have been ignored. Chris, take a look at Norm Hopkins' wages and then look at mine. Did I get paid less because I am a woman? I see the District's history with women: There were **no** retirements before me. Women were just forced out, tossed aside like garbage. Rosie was fired on Christmas. I have the records with Eddie's critical notes all over them. Duane fought for Rosie but Eddie still forced her out. Rosie was an expectant mom at the time.

Mike Corales burned a brand new work truck to the ground in the first year of his employment. He is still employed there. Why? Because firing him would have exposed the negligence that existed then and during my whole time with the District.

As I've received no response to my prior global offer of settlement this week, my settlement figure is now one million dollars plus lifetime medical.

I am asking for you to take me and my claims seriously. I await your reply no later than 5 pm on Monday 7/27/2015.
