You had CBC to look for infection and it was normal on 7/26.

Do you know what other other test you are talking about?

Dr. Jasti,  
Can you please release the xanax?

Also, I had some blood work done after I was exposed to some dirty water. I still feel feverish and not right. There was one test that didn't get ordered, can you reorder some blood work? My throat is sore, and I have pain in my trigger points.

Thank you,  
Tiffany Anderson

Hi,  
Your xanax will be automatically released on 8/19 Friday as that will be 30 days.

You had CBC to look for infection and it was normal on 7/26.

Do you know what other other test you are talking about?

Dr. Jasti
