SJCM&VCD

August 6, 2012

This document is a request to settle and finalize all legal matters between Tiffany Anderson and SJCM&VCD. I have been forced out of my tech 1 position and have suffered multiple exposures and injuries. I was a whistle blower of "Sexual Harassment" charges confirmed by a Grand Jury investigation released in 2012. The board of trustees neglected to perform their own investigation while implementing themselves health care in the year of 2009, confirmed and publicized by the Tax Payer Watch dog group.

As a result of the above-mentioned protected state, federal and county regulations and the blatant act of refusing to perform their duties, the San Joaquin County Mosquito & Vector Control District has opened the district to a class action suit.

Today I am seeking a remedy to resolve all legal liabilities the district negligently opened themselves up to. If the district does not take opportunity to resolve this matter, I will exercise my rights to make public my experience. I will also continue with the open investigation opened with the EEOC

Loss Settlement Damages

- 7
- Ant time personal challenges management the employee will face redistribution, blackmailing, retaliation and harassment.
 - This is done by not giving me the correct chemicals to do my job in the field, isolation, double standards,
 - Positions left unfilled resulting in lack of control of West Nile Virus environment. This was due to lack of training in human resources and supervisor's actions giving employee creating an environment of fear with the intent of terminating employee and or modify employee evaluations supervisors to reprimand employee and or mentioned issues John will instruct conflicts. John has used this practice for more than two years.
 - Assistant supervisor acting as temporary supervisors are not allowed to attend supervisor meetings. Resulting in fractured communications and improper hiring practices: hiring based on friendships, written job descriptions not provided, if there was a protocol for hiring in a manual it is not being followed. My own employment is an example.
 - John has instructed me to perform my tasks in a certain manner, which was contradictory to my supervisors, instruction resulting in reprimands and negative evaluations. Some of these actions were not realistically feasible.

We have a source code list of 100 sources it is possible to work for the district for many years and only deal with a small portion of this list

- Supervisors have been left with unfilled zones and undertrained techs
- Mismanagement by John Stroh

Please explain the nature of your complaint providing as many details as you can, including dates, times, and places where the events took place. (Attach extra sheets if necessary)
