John-I received your email yesterday stating there is no work available to accommodate Dr. Murata's directions. Please keep in mind I have completed a computer course at Humphrey's which taught Word, Excel & Access. I am also capable of inspecting pools and premise survey. If you have work available please keep this in mind.

I am not aware of the MOU guidelines as it pertains to Work-comp injuries and the 30 days regular pay for employees. Please inform me if I should expect my regular pay from the district for the next 30 days as the MOU states.

Can you please forward me the contact information for UNUM?

Sincerely,

Tiffany Anderson
