Mackenzie,

This email is just to reiterate my phone message and to prove documented communication to you.

Regarding the exposure and symptoms from the water entering my wound my doctor ordered a second and stronger round of antibiotics. I am optimistic this will remedy this problem. If that is the case this will be the end of this problem.

I am writing to ensure you have received every document from me. If this is not the case then call me immediately and let me know what I need to do to on my side of things.

Sincerely,
Tiffany Anderson

Tiffany I have been in meetings yesterday and most of today I will be as well but I did review your email from yesterday. If you want to add all of the issues that you claim are related to the incident on 6-29-11 then you need to file an amended claim form. You don't need to file another claim but simply amend the form already completed to include anything you feel is related to this incident. I hope this helps a little. I have not had a chance to check my voicemail yet due to meetings but I will check it and get back with you for any questions or concerns you had by the end of the week. Please let me know if you need anything else in the meantime. Thanks
