9/19/2014

Sara,

I have now had an opportunity to review the documents that you mailed out to me a week ago. Documents remain missing. Please bring my whole file with you to our next hearing, just like you did last time. I want to have access to my whole file, from 2004 to the present.

Please also bring with you responses to all of the FOIA/CA Public Records requests that I've previously made directly to your client, District Manager Eddie Luchessi. I will be bringing a list of my damages to-date and am asking you for an itemized list of all costs paid out by the District for all of my claims, along with those paid out in the Meideinger v. San Joaquin County Mosquito & Vector Control case in which I was covered under 132-A and violated by my employer. The preceding request is one of my prior FOIA requests. See you then.

Tiffany Anderson
