To the extent possible, we would prefer to have those appointments scheduled for either early a.m. (e.g. 7:00 a.m.) or late p.m. (e.g. 4:00 p.m.) to coordinate with your work schedule. If the appointments cannot be changed, we will schedule your daily work to start after you return from your appointment (e.g. after 11:30 a.m. on the days of your appointments).

John,

As I was unaware you would be willing to accommodate any work I need to bring to your attention two prescheduled appointments for Physical Therapy in Lodi

Thursday September 22 @ 10:30

Tuesday September 27 @ 10:30

Can you accommodate these two appointments or does this create a problem for you?

Sincerely,

Tiffany Anderson
