Mackenzie,

I want to confirm that you are aware that John Stroh has offered me three weeks of modified duty. Today was my first day back to work. I want to confirm this because I do not want an overpayment from AIMS. Another concern I have is the man who was following me this morning. Just in case he was too embarrassed to tell you I wanted you to know I stopped him and asked him to stop following me. It does not make any sense to me at all to have someone follow me when I am going to work. Just so we are on the same page John Stroh has offered me three weeks of accommodations. I changed all my PT appointments and my next follow up with Dr. Murata to be more accessible for work. As long as John is willing to offer accommodations I will be there. It seems like such a waist of money to have someone follow me to work.

Have a nice evening,

Sincerely,
Tiffany Anderson
