Track Your Shipment

Log on to www.ups.com or contact UPS at 1-800-PICK-UPS.

Damaged, Lost or Late Claims

In the event that your package is damaged, lost or late, please contact the Staples® Ship Center Claims Department at 1-800-797-5924.

All late claims must be called into the Staples Ship Center Claims Department within 15 days of the expected delivery date. Keep ALL packaging materials and this invoice, as well as proof of value for Damaged or Lost packages. Claims take 2 to 6 weeks for review and payment (if approved).

I understand/agree that:

1. I am subject to all Staples and UPS Terms and Conditions for shipping packages. Ask a Staples associate for details.
2. Staples reserves the right to inspect any package shipped.
3. Staples will not be liable for damage to packages improperly packed, unless my receipt shows that I paid for Staples to pack the package.
4. Staples will not ship any hazardous materials or other restricted items. Refer to the list posted at the Ship Center counter.
5. I may elect to pay an additional fee (as specified on this receipt) to add my package to Staples' parcel insurance. This election is entirely optional, and any fees do not include any markup by, or commission payment to, Staples. This option is offered as part of our UPS Ship Center services and does not provide insurance to you, and you are neither an insured nor an additional insured under Staples' parcel insurance.
6. Any claims or disputes resulting from my election to add my package to Staples' parcel insurance must be pursued in arbitration, not in any court proceeding, and must be pursued on an individual basis only, not in any form of class or representative action, either in arbitration or court. The complete terms and conditions regarding individual binding arbitration are available at any Staples Ship Center.
7. If I elect to add my package to Staples' parcel insurance, Staples' liability on any claim for loss or damage shall not exceed the lesser of (a) the insured value, (b) repair cost, (c) actual cost, (d) replacement cost, or (e) invoice price (where the shipped property has been sold). In all other cases, Staples' liability shall not exceed UPS's maximum liability for loss or damage under its Tariff/Terms and Conditions of Service.
8. International packages may be subject to duties, taxes and brokerage fees as determined by the destination country, to be paid by the receiving party. These duties and taxes cannot be prepaid or estimated by Staples.
9. If a package is returned to the store due to providing an incorrect Ship To address or the package is refused by the recipient, domestic packages will be charged at \$10 fee upon package pick up; international shipments will be charged the full cost of return delivery.

By signing this receipt, you acknowledge that Staples will NOT ship any hazardous materials or other restricted items, and you affirm that any package you have packed and offered to Staples for shipment does not contain such contents. You further acknowledge and agree to adhere to the Staples Ship Center Guidelines posted at the Ship Center counter, including (without limitation) the prohibition against shipping hazardous materials.

Certified Mail

Tyah Petersen, ED
Arbor Nursing Center
900 N. Church Street
Lodi, CA 95240

Regarding: Mary Jean Parvin

Dear Tyah Petersen:

I am writing you today to put your company on formal notice that until January 15th, 2015, I will not be taking any action in regards to Mary Jean Parvin. Do not call me, send me any bills for her care, send the police to where I live, nor harass me in any other manner. I am in the process of compiling documentation that will be shared in due time, detailing her finances and removing myself from her home. After that date, I will resume as her medical care decision-maker.

I have not appreciated the lack of professionalism exhibited by your company towards me and I will not tolerate it again. My mother is in the hospital. A formal complaint will be filed against your misconduct (including all participants involved in making me sign documents under duress as well as the conduct of your social worker towards me on September 16th, 2014, sending the Lodi police over to me).

If you fail to abide by this clear request for a respite from your pressure, then I will seek any and all legal remedies against your company. I expect your company to take exceptional care of Mary Jean Parvin during this time period.

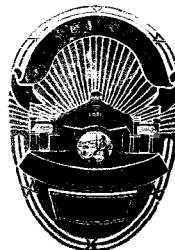

Signed,

Tiffany Anderson

Lodi Memorial Hospital

Progress Note

Date 05/19/12
Murtani/Kuljeet K MD - HOSP

Reason- MRSA+ (NASAL SWAB)

Assessment/Plan

Problems & Plan

1 Acute renal failure probably secondary to ATN : slightly worse, nephrotoxic meds stopped by nephrologist. Started on Diuretics per nephro. Renal USG shows multiple calculi within kidney-but no hydronephrosis, not present in last USG here in 2007-d/w niece Tiffany. D/W Dr Albert who recommended CT as USG findings did not correlate-shows vascular calcifications in kidney with chronic med ds-no intervention needed at this time

2 Distal Fibular fx-consulted Dr Nakata-Pt had a fall here in the hospital 4 days ago. Ice, elevation, pain control, ace wrap for now. Explained to pt that may take a long time to heal due to DM

3 Congestive heart failure (Active)-started on diuresis again

4 Cellulitis and abscess of leg (Active)- On Vancomycin + IV rocephin-will dc and start PO keflex, appreciate ID f/u

5 Proteinuria and CKD from diabetic Nephropathy: Restart ACE-I once renal function is stabilized.

6 Hypoglycemia and poorly controlled DM with HgA1c is of 14.20, Cont lantus in am and pm at ~~er~~er doses and ISS and acc checks. D/W DPOA about poor DM control which can cause ...ultiorgan failing and that this is a long term problem- I do not expect much improvement overall due to diet and meds non-compliance-?comfort food since the passing of her sister recently but i think this is a chronic issue

7 Essential hypertension (Active)
stable, monitor

8. Social-DPOA is overwhelmed, needs a letter for pt-d/w Social worker, will need rehab and suspect long term placement as well. DPOA is aware.

Plan dc in 2 days if more stable

↑ Sales

Chronic Problems:

Cellulitis and abscess of leg
Congestive heart failure
Diabetes mellitus type 2
Essential hypertension
Hyperglycemia

TV for 20 hours." Tiffany shared pt's choices are affecting her and clarified stating she was going to school and at the end of the quarter had to stop and care for pt due to pt refusing to take her medications, refusing to get up, and therefore Tiffany reports she unplugged the TV, when Tiffany returned pt stated she had nice in her room; Tiffany reports she found maggots in the room and believed they were coming from pt and perhaps from her wound; Tiffany reports she quit school to care for pt out of love for pt and also pt's sister who Tiffany reports raised her; Tiffany shared pt has left AMA from the hospital and she gets awakened at night from fire department coming at night; Tiffany states, "I don't have a life." Tiffany shared she sees how she has been enabling pt about 8 weeks ago, pt told her "not to be in her stuff" or to leave, Tiffany stated she was thinking of leaving. Tiffany feels pt needs more assistance and she cannot continue to provide care therefore if pt returns home, "I'll leave." Tiffany states she prefers not to have to do that but does not know what else to do; if pt goes to SNF (skilled nursing facility) and it is up to Tiffany to decide, she would like Arbor because this is the only one she is familiar with besides Delta which is not an option according to Tiffany. Tiffany also reports her mother will have a "double lung transplant" and she will most likely have to leave for a couple of weeks to help her mother in San Francisco and she did not know how to tell pt this. Tiffany reported she spoke to case manager Therese (Rudd) and I clarified since Tiffany had misunderstood about pt's evaluation for mental capacity; I explained general process and informed her I/staff cannot provide information without pt's permission; if pt is confused/unable to make own decisions, then POA can have information; Tiffany acknowledged understanding this. Encouraged Tiffany to take it 1 step at a time as she appeared to be overwhelmed wanting to plan out now if pt needed long term care.
