Kim,

Thank you for sending me the medical records I requested. There is some vital information missing. I need a copy of the intake questionnaire I was required to fill out prior to each appointment. The documents you sent to me were filled with Dr. Shaw's opinions of me. What is missing is the information I communicated to Dr. Shaw via the questionnaire I was required per his office protocol. This is vital information I need for my upcoming court hearing.

Thank you,

Tiffany Anderson

Hi Tiffany,

Please attached medical records from Dr.Shaw. If you could also do us a favor and confirm if you have received the correct number of pages(18 pages). Thanks.
