Regarding: Tiffany Anderson vs. San Joaquin County Mosquito and
Vector Control District

Dear Attorney Stein:

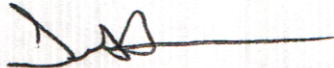

I am writing you to thank you for taking my case even when you initially didn't want to. Thank you for doing an excellent job of representing me while you were handling my matters.

You gave me great advice when you encouraged me to report all wrongdoings to the applicable agencies as my matters were very complex. You helped me assert and defend rights that I didn't even know that I had.

Due to the duress that I was under at the time, I couldn't fully appreciate and comprehend all that your office had done. But now that I'm carrying these matters forward on my own, I can see the enormous assistance that you gave me.

The professionalism and empathy of your entire office was remarkable. Your personal knowledgeable in the area of workers' compensation shows through in all of the documents that I have reviewed.

Sincerely,

Tiffany Anderson
