

**CVJV Mosquito Working Group Meeting
Yolo Bypass Wildlife Area**

December 9, 2008, 1 - 3 pm

AGENDA

1) Welcome & Introductions

2) Areas of Conflict between Wetland Managers & Abatement Districts

- Brood Ponds
- Spring/Summer Irrigation
- Early Fall Flooding (biological need and policies that deter the practice)
- Risk Assessment of WNV and other mosquito-borne diseases
- Rising Abatement Costs
- Environmental Effects of Chemical Abatement (non-target invertebrates, water quality, pesticide resistance)
- Control of "Nuisance" vs. "Disease" Mosquitoes
- Mosquito Monitoring Protocols and Abatement Efficacy
- Others?

3) Possible Solutions

- Best Management Practices
- MOU or other agreements between Wetland Managers & Abatement Districts
- Other Ideas

4) BMP Monitoring and Assessment

- Irrigation Study
