

Did I scan a blank page? Sorry.

I am perplexed about your email about settlement given the fact that you just asked Dr. Tabaddor for a supplemental report?

I will see where settlement is but it will not be done tomorrow. Please call me in the morning after 9. Thanks

You requested a supplemental report from Dr. Tabaddor.

Their office called seeking authorization to review the records.

Attached is my letter of authorization. I did clarify that the only active case is the 2011 case.

The source card number for the Stockton Sewer Plant is 10-1N-6E-18-003.

Letter to Kyle Hanson asking for 9 numbered items

It is not proper to unilaterally cancel a PQME evaluation.

If more time was needed to gather information due to the delay in getting stuff to you I would have Been willing to Reschedule the appointment.

I am going to reschedule the evaluation for April at the earliest. Do we need a conference at the Stockton WCAB Go over what you propose to send to Dr. Allems? If so let me know and I will file for a Conference.

Subject: PQME cancellation for upcoming appointment January 23, 2014 with Dr. Allems

Kyle,

I phoned Dr. Allems do reschedule the appointment coming up. I was unable to speak with him directly. I left a message on his answering machine. I am following up with this email to you. Please note I am canceling this appointment. This appointment is unnecessary until the evidence to submit is agreed upon.

Sincerely,

Tiffany Anderson

Again requested items listed in the October 16, 2013 letter

Time Sheets

I finally was able to get someone freed up in the office to copy these records for you. They will go out either tomorrow or Friday in the mail.

Letter to Kyle and copy to UNUM asking for documents in advance of the QME

Tis the season for colds and flues. I hope all is better.

Thank you, Kyle.

I was out taking care of a sick kid for a few days before the Thanksgiving Holiday
So things are a bit behind.
All of the materials are being copied so should go out in the mail either Thursday or Friday at the latest.
Hope your Thanksgiving was nice.

Dear Mr. Hansen,

Thank you for rescheduling, it is imperative I receive the documents at least.

Dear Kyle Hansen,

I am in receipt of your letter dated 10/15/13, in which you reschedule the QME for 1/23/14. Thank you for giving me the time I need to assemble my case. I am still anticipating the documents I requested, and will need to have them at least a month in advance of the appointment (as it will take that time to assemble them). Thank you for your exhaustive cooperation.

Sincerely,

Tiffany Anderson

Subject: Re: Response required

Call me tomorrow. If claims are not denied at this point (not sure) then AIMS is obligated to provide care up to \$10,000 or until claim is denied. Regarding knees you are free to treat with a doctor of your choosing.

Tiffany Anderson <tiffanyanderson@me.com> wrote:

Thank you very much Kyle for your speedy response.

Here is one major point of concern. I have been using my private insurance provided by my employer. This bene has been terminated along with my employment and I do not know where or how to get medical treatment now.

Any suggestions I would appreciate.

Thank you

Tiffany Anderson

I will reschedule the QME evaluation in the next few days.

I do not know if those injuries have been accepted or denied at this time. The time frame is 90 days from the date of the application.

I will see. However I am recommending the claims be denied pending Dr. Allems' opinion. If he then finds injury to chemical exposure then liability most likely would be accepted.

I need to review where we are with documents but will review early next week.

I will provide you with ample time to get everything together for Dr. Allems.

Sorry it has been a very hectic last few weeks.

Kyle

October 10, 2013

Kyle,

The QME with Dr Allems is getting near and I do not have the materials discussed in prior correspondence needed for this appointment. I understand you may be busy. At this time I am requesting that you respond to me where you are at.

- 1) Are you going to reschedule the QME?
- 2) Has AIMS accepted both claims
 - a. Specific Exposure DOI 6/29/2011

b. Cumulative Exposure DOI 6/2004

3) Are you going to provide the documents we discussed per phone agreement?

I will be filing next week to request a hearing for documents for medical discovery if I do not hear back from you.

Sincerely,

Tiffany Anderson

Ms. Anderson:

I enclose a letter and some documents. I will be out of the office the rest of Thursday and Friday. Let's talk either on Monday or Tuesday of next week concerning your case and how to proceed. I want to be on the same page with Dr. Allems regarding what he is going to review and what he is going to come on.

It is my opinion that he should address all alleged dates of injury concerning exposure. He does not address knee

from Rebecca Jackson To: tiffanyanderson@me.com Subject: Waste Water Information Packet

Hi Tiffany,

Despite a thorough search through our archives, I was not able to find the exact material that Liz sent to John in 1998. However, I did find some updated material related to the occupational hazards of contact with treated wastewater. I've attached guidance from the National Institute for Occupational Safety and Health around wastewater published in 2002. The recommendations for employees working around treated wastewater include employer provision of necessary personal protective equipment (PPE) such as gloves, aprons, boots, and face masks, as well as employee training, and documentation of these procedures in an Injury and Illness Prevention Program (ILPP).

You also expressed concern about exposure to formalin, which is a derivative of formaldehyde. I've attached our formaldehyde fact sheet for reference. Your employer should be providing you with material safety data sheets (MSDS's) when you are working with formalin or other pesticides, and you should be provided with and wearing when applying this or other pesticides.

You mentioned previously contacting Cal/OSHA and I read your email to Cal-EPA. These are the entities I would refer you to, as the California Department of Public Health does not have an enforcement mechanism, and does not conduct routine investigations of workplaces. I hope this additional documentation is helpful. If you have any further questions, feel free to contact me again.

Best,
