Important & Time Sensitive

Dear Mrs. Anderson,

An important note from your provider
Hymavathy B. Jasti, MD

As your personal provider, your health is important to me. Monitoring your health on a regular basis is the most effective way to reduce serious risk to your health. As your partner in health, I want to ensure that you are getting the highest quality preventive care services.

Your health care records indicate that the following tests are needed so that I can re-evaluate your current treatment plan. It is important that you complete the following screenings as soon as possible, but no later than in the next 2 weeks.

- **Breast Cancer Screening:** A mammogram can screen for and provide early detection of breast cancer, avoiding spread to nearby tissues, the lymph nodes and other parts of the body. I am concerned because our records indicate you're overdue for this important test. To schedule an appointment, please call the toll free number **1-866-493-0091 Monday-Friday, 8:30 am - 8:00 p.m. and Saturdays 8:30-5:00 pm. Closed weekends and major holidays.** You may come in for a walk-in appointment **Stockton, Monday-Friday, 8:00 a.m.-noon and 1-4:00 p.m., closed weekends and holidays** for your mammogram.

If you are interested in learning more about your health and ways to improve your health, log on to our Web site at www.kp.org. Through My Health Manager, you can also send me non-urgent messages and manage your appointments and prescription refills online. Just go to my home page at mydoctor.kaiserpermanente.org/ncal/provider/hymajasti and click on "E-mail your doctor" or "Appointments/RXrefills".

While I understand your time is valuable, I strongly encourage you to make the investment in your health and complete these screenings. It is my goal to provide the best care for you and all my patients.

Your Partner in Health,
