I just got home from school and ordered the book you recommended.  
Please forward me your mailing address work or home is fine.  
We are coming for recert training in April. Hopefully you'll be around.  
I am filing a complaint to the board as well as the labor board. Screw those people, this is ridiculous.

I'm too tired to write more.  
Thanks Tiff

Document EVERYTHING!! you may want to read Whistlerblower by Amy Block Joy. It is about an incident that was happening as I was coming into my position. part of the reason the UC is the way it is now.

Teresa,

I am really sorry to bother you about this petty shit. I am still in

school and attempting to keep my job. Today it was announced that Deanna Hopkins, the wife of another tech 1 will be promoted as a tech 2. Along with this news it was announced that Scott who I trust and has protected me will be moved as my current tech 2 sup and Deanna will be taking his place. I had been dealing with two hostile females in the locker room and then the two have mellowed out a bit. Now I know why, I am sure it was a calculated move to slide Deanna in the mix. Deanna and Norm stopped talking to me back in 2008 and does not even acknowledge me as to date. Do you have any insight suggestions, drugs? Just kidding on the last part. I need to be wise but I think I need to address this.

Oh by the way would it surprise you that Mary was interviewed twice and on the second interview in front of the whole GJ she recanted and perjured herself? I guess she was just kidding.

I am pretty cynical and upset.

Any help would be appreciated.

I owe you a massage. I found an amazing person if you do not mind coming this way. Oh and by the way Vicki Bridgewater, Carol Hopkins and I may be going out for dinner and drinks you think you might want to come?
