RE: Injured Worker: Tiffany Anderson
Date of Injury: 06/29/2011
Claim Number: VE090000198
Employer: San Joaquin County MCVD

Dear Ms. Anderson:

Upon review of your file, we noted that you have been discharged from this injury for your left knee which was a soft tissue contusion at the proximal tibia and had no impact on your knee. I would assume your injury has resolved and you have returned to your pre-injury status. If you are in need of medical care or continue to have residual disability from the injury, please contact your doctor to set an appointment, or call your attorney to discuss this further. All medical bills relating to this injury and treatment have been paid.

The State of California requires that you be given the following information: You have a right to disagree with decisions affecting your claim. If you have any questions regarding the information provided to you in this notice, please call me at the number listed below. If you want further information on your rights to benefits or disagree with our decision, you may contact your local state Information & Assistance Office of the Division of Workers' Compensation or obtain recorded information and a list of offices at (800) 736-7401. You may also visit the DWC web site at: http://www.dir.ca.gov/DWC/dwc_home_page.htm.

If it is necessary to go to the Appeals Board to resolve your claim, you must file an Application of Adjudication within one(1) year of the last date of injury or one year from the date of your last medical treatment; delays could mean losing your right to benefits. If, after receiving an award for future medical care from the Workers' Compensation appeals board, you believe there is new and further disability, you may file a petition for New and Further benefits within five (5) years from the Date of Injury.

Sincerely,

A handwritten signature in black ink that reads "Patti Triska". The signature is written in a cursive, flowing style.
