Ms. Anderson:

Regarding your case of EEOC Charge No. 556-2012-00422.

I am forwarding your email with your request for a copy of your case file to our File Disclosure Officer, Vincent Clark.

If you wish to contact him directly, his email address is [Vincent.Clark@eeoc.gov](mailto:Vincent.Clark@eeoc.gov).

Thank you.

That is incorrect and reversed. My employer by law has 5 days to produce my medical records from the date of my request. Its 4 years and my medical records where I was injured by way of over exposure at their facility without my consent or knowledge have yet to be provided to me. You are just one more agency with a green light to break laws and violate employees civil rights. One more agency that has failed me. We have a broken system and as long as there is a paycheck at the end ethics and justice are not considerations.

Thanks for the help. **I would like a complete copy of everything pertaining to my case forwarded to me to keep for my files.**

I am sure Melinda did not interview one witness. A Grand Jury concluded findings to back up my charges if someone wanted to help me it they could. I have evidence that I was never allowed to share.

My union rep instructed me to go to the DFH&E, the grand jury says go to you, you say get an attorney. It has been four years and I was promised an investigation. What I got was denied and sent in a circle.

All the best to you,

Tiffany Anderson
