**DISCLAIMER:** Most of the information found on this website is hand-culled directly from the Medical Board of California's ("Board") website and from news articles and is only as good as that original information; it's just easier to find and read here. We have a VERY small team of advocates working on this project, and cannot keep everything up to date in real time. Always check the [Medical Board](#) website directly for more information or changes.

Infractions are pulled from the "Board's" disciplinary documents themselves and/or news articles. Sometimes the categories and the categories here don't match the Board's exactly, so make sure you look up the infractions in the actual Medical Board documents.

*Note: Accusations mean that a doctor has not had a hearing or been found guilty of any charges, but are being investigated by the Medical Board and/or the California Attorney General's Office.*

**\*\*The California Medical Association (CMA) is a union of sorts for doctors in California. They have a lot of political power and donate a lot of money to the state's legislators in return for their "support." They appear to have a lot of "sway" over the Medical Board's members. One would think that most doctors would be members of the CMA with the amount of power they wield, but in actuality, 2/3 of this state's doctors refuse to join the CMA...which means that the majority of doctors in the state, choose to NOT be members.**
