Evidence and Index of Records for Medical Care

Dr. Eduardo,

My medical claims have gone ignored by doctors and agencies for years with clear intentional negligence from the insurance company et al.

During our office visits I will be submitting records I have been mailed in triplicates from the defense yet somehow, they can't seem to get to any treating physician or QME by their claims handlers for an accurate handling of this insurance policy.

I intend to be a victor over this system and although it was created to break the injured worker and benefit the lobbyists I am rising up and responding to this broken workers comp system with evidence and documents that were falsified and weaponized to cause me more harm by Stockwell, Harris Eric Helphrey et al.

I am returning all the evidence of my claims back to the defense via your office, the third party in these matters for you to review and document accurately in a medical assessment to determine the medical facts.

This workers comp claim involves multiple injuries to my whole-body system due to pesticide exposure for 7 years and three knee surgeries. My medical records for review are extensive alone.

Equally towering are documents of laws governing my employer and my rights as a California state pesticide applicator and they must be used for evaluating claims by all parties for an accurate job requirements/hazards Safety Data Sheets are the law and must be present when evidence of or treatment for exposures are reported to employer or physician.

All records I possess are stored for public access as this agency is a tax funded this allows all parties to review records any time.

In the upcoming weeks I will be providing you all my records indexed. They will be uploaded to my blog [culexpien.com](http://culexpien.com) posted under Dr. Lin. All documents for your review are legally governed and protected by state laws. This is my response to the defenses mishandling of my claims which has diminished my quality of life since they began handling my injuries in 2004 before I was state certified in direct law violation.

Evidence Index for medical evaluation and rating

|             |  |   |
|-------------|--|---|
| 4 pages     | Vector Control Technician Certification Program                                  | State of California Department of Public Health (Law Violation)   |
| 2 pages     | Tiffany Anderson Certificate Number 520003542 Issued 11/2005 (Hire date 4/19/04) | Photos of my Licenses for dates 2007, 2013 (missing) (Law Violation)  |
| 18 pages    | Pesticide Training Records For Tiffany Anderson                                  | The label is law. Not certified to spray alone for 1 year. Employer (Law Violation)                                       |
| 2 pages     | Anderson N Hopkins date of hire salary comparison                                | 10/14/04 payroll record, salaries 2009-2013 (Law Violation)   |
| 20 pages    | Employee Time Sheet Sick Leave Report 2004-2011                                  | Discovery Received August 26, 2014 Fraud/False Reporting payroll by employer (Law Violation)                              |
| 1,108 pages | Tiffany Anderson Kaiser Medical Records from dates 2005-2011                     | Subpoenaed 2011 defense mailed me three copies 1,108 X 3 3324 pages total costs (Excessive Records Costs) (Law Violation) |
| 3 pages     | Compex Legal Services Inc. Cover page to Kaiser Records                          | 3 Volumes personal care remedies for pesticide poisoning, defense ignores evidence in medical file                        |

I understand all to well how daunting of a task this will be as I was sent all of these records over the years and I had to read all of its contents, understand and index them. I have taken the time to index my medical records into an Excel spreadsheet for discovery and its accessible to all parties posted on my blog.

Provided today for your review are over 2000 medical, payroll and legal records pertaining to my claims and will prove a pattern of intentional negligence by all parties involved at my physical and financial expense. This is a small portion of what I have in my possession and needs to be evaluated and reported to the defense and all governing agencies per law.

Please take your time to review and report your findings. The defense has spared no cost to providing me with boxes of the fraudulent discovery. It has cost me years, lives of loved ones and over \$250,000.00 in wage loss alone. AIMS and Allied should be using these same records. Records will prove them as coconspirators with their client's violations of state Pesticide Laws, reporting and handling of injuries to employees for their personal profits.

Workers comp claims are worthless efforts for a true remedy. My purpose is to prepare a legal trail of records to report insurance fraud, payroll fraud and the criminal actions of all parties denying Pesticide Applicators protections in accordance to law.

Sincerely,  
XX
